Feminisms Matter: Debates, Theories, Activism

Synopsis

In this lively narrative, newcomers to women's and gender studies, feminist politics, history, and sociology explore a refreshing take on a subject matter often loaded with assumptions. Feminist theories are viewed through the critical intersections of race, class, sexuality, age, and ability, and are embedded in the experiences of everyday life, allowing Bromley to engage readers in doing theory, in making sense of concepts like "power" and "privilege," and in effecting social change. Using a variety of pedagogical devices, including provocative images, discussion questions, and classroom activities, *Feminisms Matter* helps readers cultivate a way of thinking critically about their everyday worlds.

Book Information
