Customer Reviews

High Quality study guide that does a great job at getting you ready for the exam. I passed and this book helped make test day easy and stress free. I highly recommend it!

I actually found 2 mistakes so far in this book. Will be using this book very carefully. Luckily I have 3 other practice books from the library. The one book I spent money on had mistakes. Not satisfied. I'm sure it's a similar book but my book didn't look like the picture's book. Similar name and by the same publisher.

I have found multiple mistakes in the practice tests section of this book. Even when answering extremely simple questions, the answers provided in the back were incorrect. I am finding it difficult

to trust the reliability of the information in this text.
