The Power Of A Praying® Husband

Synopsis

Stormie Omartian's bestselling The Power of a Praying® series (more than 28 million copies sold) is rereleased with fresh new covers and new material to reach a still-growing market of readers eager to discover the power of prayer for their lives. In The Power of a Praying® Husband, you'll find the excitement and hope that come from inviting the God who hears and answers prayer into your marriage. Packed with real-life examples and refreshing honesty regarding her own marriage, Stormie encourages you to lovingly intercede for your wife in every area of her life, including her priorities, emotions, motherhood, fears, and sexuality. Each chapter features comments from well-known Christian men, biblical wisdom, and prayer ideas. The warm and easy-to-read book includes a foreword by Stormie's husband, multi-Grammy winning music producer Michael Omartian. It's a resource that makes a great gift to husbands from wives and is also an excellent study for men's groups wanting to develop the discipline of prayer.

I am so impressed with this author. A friend of mine some time ago gave my wife and I "The Power of a Praying Wife" and "The Power of a Praying Husband." When I first read the book I couldn't get through it. As a Catholic Christian I thought that spending a chapter on submission was ridiculous, outdated, and downright fundamentalist. I nearly threw the book away, but instead shoved it into my bookshelf, assuming it to be yet another book by an undereducated fundamentalist someone decided to burden me with. However, my wife and I were arguing about something about six months

later, and I thought to myself "stop yelling and get quiet... I can't hear God when I'm loud." I apologized and went to my study, and there on the book shelf was "The Power of a Praying Husband." Aright I thought, prayer is ALWAYS the best answer, lets pray,I began doing a chapter a day. I say "doing" because at the end of each chapter there are prayers, and I prayed them seriously. I also began "doing." I realize many readers of this review will probably think I am going to hell for this, but I believe that faith without works is dead, so I began acting on the implications of what is in the book. I took control of our finances so my wife wouldn't have to worry about paying the bills. She has so much to do already. I started picking up around the house to help her. I started to do so much MORE than I used to. I realized something through the process. I was not an enlightened person in a modern marriage. I was lazy! I began to feel better about myself and more empowered, especially in that I was in charge of the finances and paying the bills etc. My wife became less burdened and much more happy. Our sex life improved and I received a greater sense of purpose in my manhood. Our lives have become happier.This is not an academic book. I spend most of my reading time on serious theology, scripture, and on the history of the early church. I had to get "un-snoby" and read with the simple eyes of a man seeking to be a better and Christian husband. Praise God I did. This book was literally life changing. My wife and I keep our copies of our respective editions by the bed. Really folks, BOTH you and your spouse need to read BOTH editions before judging whether or not this author has an appropriate and Christian agenda. We reread and redo the chapters pretty regularly and our marriage is more rewarding than ever before. I recommend this book wholeheartedly. If found that when I let go of my arrogance and prayed with the book, my life improved.Thanks stormie!

My wife has been reading and re-reading "The Power of a Praying Wife" for some time now. For Christmas, she got me "The Power of a Praying Husband."This is a simple-to-read, yet very practical book. It covers twenty different areas in which women need their husbands' prayers, including such areas as her spirit, emotions, motherhood, relationships, sexuality, trust, fears, and her desires. A separate (but brief) chapter is devoted to each topic.At the end of each chapter, there are seven specific items related to that area about which a husband can pray. Following that is a brief testimony from a husband who implemented prayers in that area, and then a "sample" prayer. Each chapter closes with several Scripture verses related to the topic.I am incorporating these twenty areas into my daily prayers for my wife. I'd recommend this book for anyone who wants to enrich their prayer life and improve their relationship with their wife!

Gentlemen, how would you like to have a great marriage? I not talking about a good marriage or an ok marriageâ ¡â ™m talking about a marriage of the kind that makes you take a big step back and sayâ ¡â •Wow!â •?You can have that kind of relationship with your wife. As husbands, we have a biblical responsibility to our wives and families to pray for them. Now I can say that I prayed for my wife and family on a more or less regular basis, as time and memory allowed. I hate to say it, but that doesnâ ™t cut it. That sort of conviction doesnâ ™t extend the full benefit of prayer to your family and in particular to your wife.In fact, I didnâ ™t realize how infrequently I prayed until I picked up The Power of a Praying Husband, by Stormie Omartian and began to pray the prayers inside.I noticed that many things started to happen within our relationship almost immediately. We disagreed less, we communicated better, her relationship with the kids and extended family improved. I also noticed almost immediately when I missed a day praying.The book is laid out in 20 relatively short chapters. Each chapter has a theme and lead in by Stormie. What follows is a short section entitled â œHe Saysâ • in which the men, most of them popular ministers and artists detail the effect of prayer in their relationships. After that comes the prayer itself and some scriptural references. Topics that are covered include praying for your wifeâ ™s: relationships, motherhood, emotions, moods, beauty, trust, protection, and sexuality.Some have argued that the book is more of a â œhow to treat your wifeâ • book than how to pray for her. Others have argued that the book is a joke and too campy with itâ ™s use of humour and light heartedness. I have to say that I disagree with both statements. Through the use of humour, and male related stories, the author is able to effectively reach the generally difficult male audience.I have a great burden for us as men and the apparent loss of our place in society. The role models presented by popular culture are not role models at all, but parodies and jokes of what real men should be. Yes, this book is more basic and light hearted, it is supposed to be to reach a general audience. No, it doesn't tell you what to pray, it provides the framework, the rest is your responsibility to figure out through discussion with your wife. What this book does do and do very well, is provide a firm foundation for most men, most of whom are very busy and occupied with many things in their lives.I highly recommend this book.

I was going through a very trying time in my marriage and was led to this book, I found out that I do have power and can help my wife cope with the emotions, fears and insecurities in her life, Before I would shy away from her when I did not know what to say or do, I thank GOD for this book. If you are a man needing the tools to be a good husband this book is for you.

These cards are a must for the husband who wants to pray for his wife, but never seems to feel

confident in the contents of his prayers. They are small enough to carry in your workbag, back pack, or leave in your car. I highly recommend for any husband who wants to take his marriage to another level.
