Customer Reviews

The practice of understanding analogies was good but none of these questions remotely represents any on the test. Not one of the 500 questions is found on the MAT test so you use this book for the practice of taking analogy-type questions but otherwise it will help none.

Reading this on a mobile device is terrible! (Android HTC One MAX +5" screen) most of the words, sentences, and directions are not appearing on the screen at all.... so I switched to PC screen (FYI 26"); better but every time you go back and forth between the screens and/or the pages that you

have tagged the information on the screen disappears and you have to scroll up and/or down to get them back. It still have some words not completely projected on the PC screen even in "full-screen" mode. I guess this is another trick for to try and sell their Kindle or Fire products. This is not only happening with this book but also with the "GRE Premier 2016 with 6 Practice Tests: Book + Online + Video (Kaplan Test Prep)." Unbelievable... I am a computer savvy and I have tried anything you can think of. Customer service would not refund because they said you should have reported it within 7-days of purchase.

It is 500 practice questions with brief explanations on the answer key. I was hoping for more. Ive ordered another book to supplement this one.

This book provides a lot of great practice questions for the MAT, I can tell it's going to help me improve my scores.

Great book--it actually helped me score well on my MAT exam! I'd highly recommend it! You'll learn a lot!
