Customer Reviews

Noted Civil War historian Chris Calkins provides a great service to those who follow the path of the Army of Northern Virginia and the pursuing Army of the Potomac during the last week of the Civil War in Virginia. This is the latest of several published studies of the Appomattox campaign that Chris has authored. Drawing upon his tremendous knowledge of the battles that broke the Confederacy's hold on Petersburg and the surrounding area in early April, 1865, Calkins provides a very useful, highly readable guide for those who would like to drive the official "Lee's Retreat" driving tour from Petersburg to Appomattox. The maps by Steve Stanley are excellent. Using "Lee's Retreat: A History and Field Guide", the traveler comes to grips with the first-person accounts that put flesh on the bones of the signs and limited-range AM radio messages available at selected stops along the trail. This nicely designed and sturdily bound paperback guide is well worth the modest cost and may well lead the reader to delve deeper into this fascinating period -- the final days of the Civil War in Virginia.

If you want to buy any guide book on this epic campaign and want to get the correct and informative information, go nowhere else. Between Burke Davis and Chris Calkins you are good to go on books on this last chapter of the Civil War. Chris Calkins however, is the authority on every aspect of the Appomattox Campaign.

If you are contemplating a visit to Appomattox and the area this is a valuable tool. It details what you will find there and how to get around.
